## **Play-based Therapeutic Education**

### **OUR PROGRAM**

Connected Kids Preschool is a 12-week program for 3-5 year old children who have experienced trauma. Twelve children will participate in play-based therapeutic experiences twice a week for 3 hours in an early childhood setting with three teachers. Activities will be carefully planned to bring organization to the brain through patterned, repetitive, rhythmic touch, sound, and movement. Through these experiential lessons, students will increase academic skills and develop a sense of joy and hope for the future.

### **WHO IS THE PROGRAM DESIGNED TO REACH?**

Children ages 3-5 who are currently or have been in foster care, adoptive children, or children who have been recommended by a school or community agency. (Children should be 3 on or before September 1st.)
